RE: Educational Professionalism

Thank you for facilitating a group of our faculty and staff members during the professional development activities we hosted on February 6th. This was a wonderful opportunity to lead meaningful and relevant dialogue surrounding the subjects of grading and homework in our district. As a respected member of our faculty, I appreciate you accepting and carrying out the invitation to work with the diverse group of educators provided to you for the afternoon. It was terrific to be a part of an initiative that brought all of our district educators together to collaborate and have you leading the charge for gathering data from each of your group members.

Your work did not go unnoticed and is greatly appreciated. I look forward to continuing our work around the subjects of grading and homework, continually striving for excellence and what is best for the students of our district.

Again, thank you!
